1. If prompted by the operator, ask to join the CalciMedica Phase 2b CARPO Topline Data Readout call.

About CalciMedica

CalciMedica is a clinical-stage biopharmaceutical company focused on developing novel CRAC channel inhibition therapies for inflammatory and immunologic diseases. CalciMedica's proprietary technology targets the inhibition of CRAC channels to modulate the immune response and protect against tissue cell injury, with the potential to provide therapeutic benefits in life-threatening inflammatory and immunologic diseases for which there are currently no approved therapies. CalciMedica's lead product candidate Auxora™ has demonstrated positive and consistent clinical results in multiple completed efficacy clinical trials. CalciMedica has completed a Phase 2b trial (called CARPO – [NCT04681066](#)) in AP with SIRS and a Phase 2b trial (called CARDEA – [NCT04345614](#)) in COVID pneumonia patients, continues to support the ongoing Phase 1/2 AIPT study (called CRSPA – [NCT04195347](#)), with data expected in 2025, and has initiated its Phase 2 study (called KOURAGE – [NCT06374797](#)) in AKI with associated AHRF with data expected in 2025. CalciMedica was founded by scientists from Torrey Pines Therapeutics and the Harvard CBR Institute for Biomedical Research, and is headquartered in La Jolla, CA.
