About CalciMedica

CalciMedica is a clinical-stage biopharmaceutical company focused on developing novel CRAC channel inhibition therapies for inflammatory and immunologic diseases. CalciMedica's proprietary technology targets the inhibition of CRAC channels to modulate the immune response and protect against tissue cell injury, with the potential to provide therapeutic benefits in life-threatening inflammatory and immunologic diseases for which there are currently no approved therapies. CalciMedica's lead product candidate Auxora™ has demonstrated positive and consistent clinical results in multiple completed efficacy clinical trials. CalciMedica has announced data for a Phase 2b trial (called CARPO – [NCT04681066](#)) in patients with acute pancreatitis (AP) and accompanying systemic inflammatory response syndrome (SIRS). The Company has also completed a Phase 2 trial (called CARDEA – [NCT04345614](#)) in patients with COVID pneumonia. The Company is currently conducting a Phase 2 trial (called KOURAGE – [NCT06374797](#)) in patients with acute kidney injury (AKI) with associated acute hypoxemic respiratory failure (AHRF) and continuing to support the ongoing Phase 1/2 trial (called CRSPA – [NCT04195347](#)) in pediatric patients with asparaginase-induced pancreatic toxicity (AIPT). CalciMedica was founded by scientists from Torrey Pines Therapeutics and the Harvard CBR Institute for Biomedical Research, and is headquartered in La Jolla, CA.
