

CalciMedica Announces One-for-Five Reverse Stock Split

August 27, 2026 1:00 PM EDT

CalciMedica's Common Stock to Begin Trading on a Post-Split Adjusted Basis on August 31, 2026

LA JOLLA, Calif., Aug. 27, 2026 (GLOBE NEWSWIRE) -- CalciMedica Inc. ("CalciMedica" or the "Company") (Nasdaq: CALC), a clinical-stage biopharmaceutical company developing novel calcium release-activated calcium (CRAC) channel inhibition therapies for serious inflammatory, immunologic, and cardiopulmonary diseases, today announced that it will effect a reverse stock split of its issued and outstanding common stock, at a ratio of 1-for-5, effective at 5:00 p.m. ET on August 28, 2026.

CalciMedica's common stock will begin trading on the Nasdaq Capital Market on a split-adjusted basis commencing upon market open on August 31, 2026 under CalciMedica's existing trading symbol "CALC" with a new CUSIP number, 38942Q301. The reverse stock split was approved by CalciMedica's stockholders at CalciMedica's Annual Meeting of Stockholders held on August 19, 2026, with the final ratio subsequently determined by CalciMedica's Board of Directors. The reverse stock split is intended to bring CalciMedica into compliance with the minimum bid price requirement for continued listing on the Nasdaq Capital Market.

At the effective time of the reverse stock split, every 5 shares of CalciMedica's issued and outstanding common stock will be automatically combined and converted into one issued and outstanding share of common stock, and the authorized shares of CalciMedica's common stock will be reduced from 500 million to 100 million shares, without any change in par value per share. The reverse stock split will reduce the number of issued and outstanding shares of common stock from approximately 34.5 million shares to approximately 6.9 million shares. The reverse stock split reduces the number of shares of common stock issuable upon the exercise or vesting of CalciMedica's outstanding stock options, restricted stock units and warrants in proportion to the ratio of the reverse stock split and causes a proportionate increase in the exercise prices of such stock options and warrants, in accordance with their respective terms and as described in CalciMedica's proxy statement for its Annual Meeting of Stockholders as filed with the Securities and Exchange Commission on July 23, 2026 (the "Proxy Statement").

No fractional shares of common stock will be issued as a result of the reverse stock split. Stockholders of record who would otherwise be entitled to receive a fractional share will receive a cash payment in lieu thereof. The reverse stock split impacts all holders of the Company's common stock proportionally and will not impact any stockholder's percentage ownership of common stock (except to the extent the reverse stock split results in any stockholder owing only a fractional share).

The Company has chosen its transfer agent, Equiniti Trust Company, LLC (the "Transfer Agent"), to act as exchange agent for the reverse stock split. Stockholders owning shares via a bank, broker or other nominee will have their positions automatically adjusted to reflect the reverse stock split and will not be required to take further action in connection with the reverse stock split, subject to brokers' particular processes.

Additional information regarding the reverse stock split can be found in the Proxy Statement.
